Subject: Your unsigned statement to the public

Mr. Jacobs,

Your statement dated September 6, 2019 should be listed as your biggest embarrassment. Since when do you put a person who has absolutely no understanding of weather systems above the work of many esteemed meteorologists? The safety of the people should be your first concern, not creating panic and stress. To make a public statement that confuses people and undermined the work of the Birmingham NWS makes you look loyal to the President is not in your job title description.

Shame on you.
